Office of the Director  
Research Animal Facility

**All redactions on this page are pursuant to (b)(6) & (b)(7)(c).**

**DATE:** November 16, 2005

**TO:** APHIS/AC; USDA

**FROM:** Registered Facility 22-R-0020

**RE:** Annual Report for 2005

**Assurance statements: 3) Exceptions to standard housing**

Exceptions to standard housing are routinely done postoperatively. Dogs and pigs are routinely housed in recovery cages with a floor surface area of 15 ft<sup>2</sup> in a designated postoperative recovery room (separate for dogs and pigs) for 2-4 days after surgery. Animals are checked two or more times a day as often as needed. Dogs are taken out of the recovery cage to urinate and defecate and to move around the room as their condition allows. Pigs are not taken out of the recovery cage but are routinely brought back to the animal room pen on day 2 or 3 post-surgery.

These exceptions apply to all dogs and pigs which have recovery surgery and include all 56 dogs and 94 out of 120 pigs. Twenty-six (26) pigs were used for non-recovery surgery.

The IACUC has approved these exceptions.

**ASSURANCE STATEMENTS**

- 1) Professionally acceptable standards governing the care, treatment, and use of animals, including appropriate use of anesthetic, analgesic, and tranquilizing drugs, prior to, during, and following actual research, testing, surgery, or experimentation were followed by this research facility.
- 2) Each principal investigator has considered alternatives to painful procedures.
- 3) This facility is adhering to the standards and regulations under the Act, and it has required that exceptions to the standards and regulations be specified and explained by the principal investigator and an Institutional Animal Care and Use Committee (IACUC). A summary of all such exceptions is attached to this annual report. In addition to identifying the IACUC-approved exceptions, this summary includes a brief explanation of the exceptions, as well as the species and number of animals affected.
- 4) The attending veterinarian for this research facility has appropriate authority to ensure the provision of adequate veterinary care and to oversee the adequacy of other aspects of animal care and use.

9. Non-Human Primates					
10. Sheep					
11. Pigs					
12. Other Farm Animals					
13. Other Animals					
Rat			2336		2336
Mouse			1072		1072

## ASSURANCE STATEMENTS

- 1) Professionally acceptable standards governing the care, treatment, and use of animals, including appropriate use of anesthetic, analgesic, and tranquilizing drugs, prior to, during, and following actual research, teaching, testing, surgery, or experimentation were followed by this research facility.
- 2) Each principal investigator has considered alternatives to painful procedures.
- 3) This facility is adhering to the standards and regulations under the Act, and it has required that exceptions to the standards and regulations be specified and explained by the principal investigator and approved by the Institutional Animal Care and Use Committee (IACUC). A summary of all the exceptions is attached to this annual report. In addition to identifying the IACUC-approved exceptions, this summary includes a brief explanation of the exceptions, as well as the species and number of animals affected.
- 4) The attending veterinarian for this research facility has appropriate authority to ensure the provision of adequate veterinary care and to oversee the adequacy of other aspects of animal care and use.
